DETAILED ACTION

Receipt is acknowledged for the request for continued examination filed 03/14/2005. An information disclosure statement was also filed on that date.

Information Disclosure Statement

The information disclosure statement filed 03/14/2005 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because no documentation has been presented to substantiate the allegation of public sale. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8, 10, 12, 13, 17-24 are rejected under 35 U.S.C. 102(b) based upon a public use or sale of the invention.

An issue of public use or on sale activity has been raised in this application. In order for the examiner to properly consider patentability of the claimed invention under 35 U.S.C. 102(b), additional information regarding this issue is required as follows: Applicant has not provided documentation to substantiate the public sale of the triple lumen catheter. Also, since applicant has admitted sale through the licensee, it assumed that a trade paper or document exists which describes the item for sale. This and any other documentation of sale should be forwarded to this office.

Applicant is reminded that failure to fully reply to this requirement for information will result in a holding of abandonment.

Solomon et al is cited for its disclosure of chlorhexidine coated medical device.
